Composition & structure

SYNTHETIC EXAMPLES

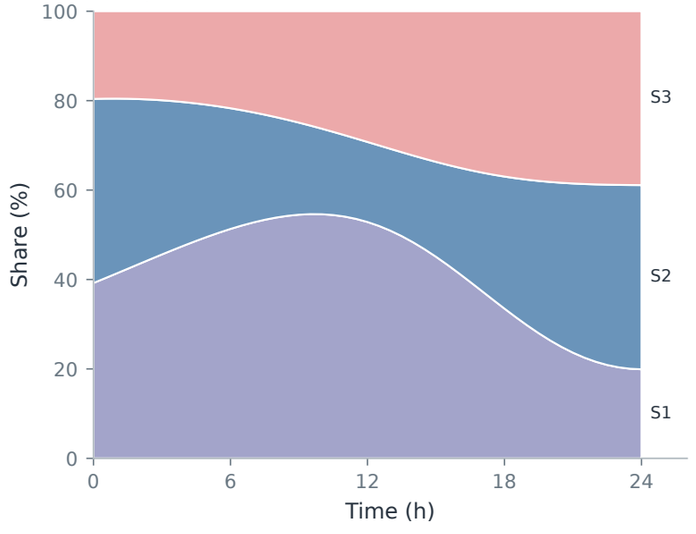

19 Stacked composition

Mean fractions; 10 samples per batch

20 Stacked area

Three positive shares normalized to 100%

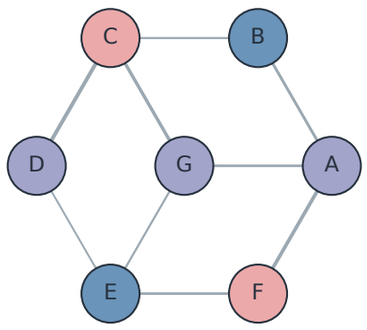

21 Radar profile

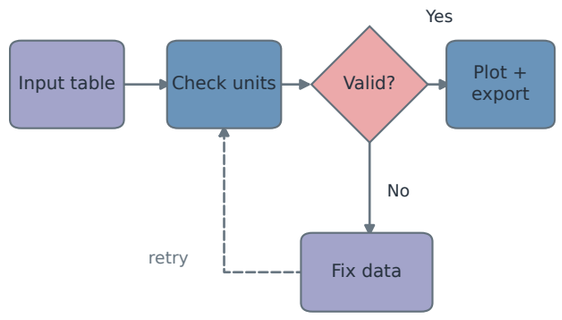

22 Relationship network

Toy undirected graph; width = assigned weight

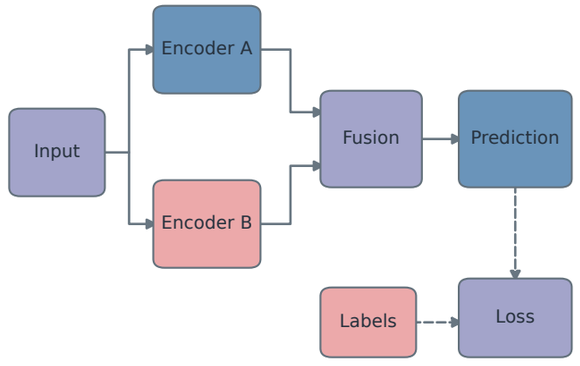

23 Decision workflow

Toy logic; dashed line denotes retry

24 Model architecture

Toy model; dashed paths are training-only

All numerical inputs are simulated. Schematics describe toy relationships, not real scientific claims.
